

TESTIMONIALS

WAYNE, *Whole House Renovation*

We had recently purchased a 100+ year old home in South Wayne. For us, the project was going to be substantial and we wanted to make sure we had the right contractor in place. We interviewed a number of different contractors and selected Pete.

By any measure, the project exceeded all of our expectations. Pete finished early and on budget. He gave us a schedule of his work, and just as important, what he needed from us to keep the project on schedule. He would even provide gentle reminders as the deadline for our more important decisions was approaching. Equally important, the quality of Pete's work, as well as that of the subcontractors, was superb. It was readily apparent that each trade had worked with Pete for many years and was committed to a high quality project that would last for many years. Whenever an issue arose (*no surprise given the age of the house*), the immediate reaction was how best to solve the problem. At every step, we found that Pete was a true partner in the success of the project.

GLADWYNE, *Tear Down & Rebuild New Home*

Pete McKenna was our builder when my wife and I rebuilt our house. I had heard that Pete was a great builder but I did not realize the extent of his abilities until he went to work for us, it was his attention to details that really made him shine. We blended our ideas together with his and he would always listen to our creative thinking and incorporate this into the full picture for how we wanted our house to turn out when he was finished. Also all of his sub contractors were polite, professional and skilled craftsmen, best of all Pete was on time and below budget. If you are looking for an amazing builder look no further than Pete McKenna.

DOWNINGTOWN, *1796 Farmhouse Renovation*

McKenna builders were very good to us. They worked really well with our Architect which often saved us a lot of money. Our 1796 farmhouse was a very complicated project but all the contractors were extraordinary, and now not only do we have a very well built house, it also is beautiful. We will be in this house forever thanks to McKenna.

WAYNE, *Basement Family Room Renovation*

"Home construction and remodeling can be stressful under the best of circumstances, but the customer service mentality and craftsman's pride of Pete McKenna's team made our project a smooth one, even though we were living in the house at the time. It was comforting to know that they cared as much about getting the little things right as much as we did. This was one of those checks that you really don't mind writing; I would recommend McKenna Building Group to anyone."

WAYNE, *Modern Custom Renovation*

My experience with Pete and his crew has been extremely fulfilling. My home has been transformed from an insignificant builder home, to a custom, one of a kind vision. Their attention to details, client's wishes, workmanship and carry-thru project skills has been a major asset to their success. Their ability to provide and aid in problem solving issues has given me the comfort level to seek their work no matter big or small. Knowing my projects and renovation dreams would be realized in the most caring manner is invaluable. I am thankful for all their hard work and will be enjoying my home for years to come. I will for sure be using McKenna Builder for future home improvement projects.

DEVON, *Farmhouse Rebuild*

Pete and the McKenna group have restored a beautiful home for our family. The professional, transparent and caring approach they took created trust and a collaborative approach to our home that brought joy to us in the process and everyday we live in our house.

BRYN MAWR, *Addition & Renovation*

Pete and Brandon were easy to work with. They consistently provided us with a range of possible solutions, advised us of the pros and cons associated with each option and they told us what they would do if it was their house. The subs that we worked with reflected the values that Pete and Brandon exhibited. They were hard working, straightforward and reliable. It was a pleasure to work with everyone associated with McKenna Building Group.

MEDIA, *Interior & Exterior Transformation*

McKenna Bldg Group was my trusted partner in renovating the entire exterior of my home and a full kitchen/living room reno. With utmost professionalism, they kept me constantly informed of their progress, and never compromised on quality workmanship even though I wasn't there leaning over their shoulder. When the sink was 1/4" off center, they moved the entire granite countertop 1/4" to get it perfect. And yes, we finished on time and on budget.

WAYNE, *Whole House Fire Restoration*

In 2011 my beautiful stone 1923-built home in Wayne was reduced to a shell by fire and water damage. Pete came in with a six-month restoration plan that included everything from mechanicals, floors, walls, windows and roof to fine architectural features. He executed the plan with precision and delivered on time and on budget. The quality of the work was superb throughout - gorgeous masonry, gleaming hardwood floors, lovely marble bathrooms, and an amazing kitchen. The trim-work was painstakingly constructed to reflect the original 1920's detail. My house was literally reborn as a period home *{continued}*

with thoroughly modern amenities. Pete was a real pleasure to work with, attentive to what I wanted and creative in finding ways to overcome the challenges of restoring and improving an older home. I would not hesitate to work with Pete on future projects.

ARCHITECT PROFESSIONALS

For the past eight years, Pete has been the contractor of choice for many of my discerning clients. He has the ability to turn the complicated task of construction into a speedy, seamless process. To reach the end goal of a unique and beautifully crafted home, he brings every aspect of professionalism to bear on the project in a personal way. He is a great communicator and creates an effective team between all parties. He is hands-on and present on site daily. His sub-contractors are among the most talented craftsmen in their own trades. He is extremely organized and creatively sequences the work for minimal disruption while keeping costs reasonable. While his management style is uncompromising - Type A - Pete's personality is somehow very relaxed. Renovation work is often demanding and Pete has the experience to create solutions. He does this while not sacrificing the architect's expectations for detailing. He often saves money in the process. My clients, fellow subcontractors, and I have trusted his professionalism and fair practices. When clients have additional projects years later, they have never switched to another contractor. It is a delight to work with Pete.

ARCHITECT PROFESSIONALS

I have had the pleasure of working with Pete McKenna on several projects. In all cases, Pete has been professional, attuned to detail and easy to work with. Often, the landscaping is a "forgotten" component of a building project, but Pete has always been considerate in including me in the building process at each stage of construction. I have seen him interact with clients, sub-contractors and design professionals with the same consideration and patience. He is sensitive to quality and excellence in his work; rare qualities that make for a successful job and happy clients. I am happy to refer Pete to my colleagues and clients.

ARCHITECT PROFESSIONALS

We/I have worked with McKenna Building Group Inc. for many years on a variety of residential projects, and it is truly a pleasure to prepare this recommendation for Pete and his team. Pete is easy to work with, flexible, and reliable. Throughout construction, an undertaking which can be harrowing and difficult, Pete's calm demeanor is reassuring. Feeling confident in your builder is critical to maintaining a smooth construction project, and Pete always provides a high level of confidence to his customers for the entirety of the process. The workmanship provided by McKenna Building Group is top notch, and pricing is always fair and appropriate. We include Pete and his team on many of our project bidders lists, as they work well with a wide variety of client personality types. Pete reads his customers well and is able to consistently maintain a solid working relationship with all team members as well as a happy and satisfied customer. I highly recommend Pete McKenna and McKenna Building Group Inc.
